## EXPERIENCE

### HoPro | Industrial Design Intern

Startup company HoPro specializes in manufacturing high quality holographic displays. During this internship I co-worked with Danil Šcepanov and we created a new holograph design, made technical drawings for manufacturing, learned about metal manufacturing and cardboard packaging. I worked in startup environment, that gave me knowledge on how it is created and how it functions.

Jun 2017 – Aug 2017  
Lithuania, Business Hive

### No Picnic | Industrial Design Intern

Worked in an award-winning industrial designers studio. Gained knowledge in professional team-work with senior industrial designers, contributed in projects for some of NoPicnic's most important clients e.g. Ericsson, Victorinox, Evoko, Capwings and

Aug 2018 – Oct 2018  
Sweden, Stockholm

## EDUCATION

### Vilnius Academy of Arts | BA Industrial and Product Design

4 years of creativity, challenges, daily strive to become better, massive progress, self-discovery, growth, all in a company of best coursemates and lecturers. During these years I realized the importance of surrounding yourself with people better than me. That's the best way to make progress and grow.

2014 – 2018
